For participants without an official average: there will be drawn three games after the shift which will serve as a basis to calculate their handicap. (Declarations concerning the average drawn up by clubs, are not valid.)

4. The foreign players must sign a statement regarding their membership to one or more federations indicating their highest federation average, and they will be registered under their possibly BBSF-license number.

5. The playing rules of the F.I.Q.-WTBA and the BBSF apply. Only amateurs are allowed.

8. One trio per lane.
9. The lanes will be assigned in accordance with the entering of the inscriptions.
- 10a. The tournament is played per trio scratch and handicap (men, ladies, or mixed), followed by a final singles scratch and handicap MEN and singles LADIES handicap.
The eliminations over 6 games are played with changing lane after each frame, and after each game by moving 2 lanes to the right.
The rankings are made in accordance with the scratch scores, and, according to the scratch scores plus handicap. Only 8 highest series singles Men scratch, 8 highest series Men handicap and 8 highest series singles Ladies handicap are eligible for playing the final (hc = 0 is not included in hc ranking singles; ditto for trios with hc = 0 who are ranked only in trios scratch).
- 10b. The maximum handicap is 45.
The handicap will be calculated for the BBSF federated players 70% on 200 according to the official average on their BBSF-license.
- 11a. The obtained results in the eliminations will also include the final ranking from the 8th until 12th place Ladies hcp, and Men scratch and hcp.
- 11b. The final is played over 4 games starting from 0 (zero), with changing of lanes after 2 games. The results of those 4 games is the final endranking (from the 1st to the 8th place Ladies hcp and Men hcp and scratch). Please note that the first 8 after the eliminations may only claim a price if they have taken part in the finals.
- In case of absence they will be replaced by a booster-player and not by the next in the ranking, and the prize money will also not be handed.
- 11c. During each shift a price of 180 € will be awarded for the highest trio series on 6 games scratch and for the highest trio series on 6 games with handicap (interval calculated on the trio-scores).
- 11d. For each ex-aequo qualifies first the smallest interval between highest and lowest score and then the highest score (for both cases: in the shifts over 6 games, in the finals over 4 games).
(In case of an ex-aequo in the finals: extra 10th frames will be played)
- 11e. It is impossible to win at the same time a prize in scratch and handicap. The participant who would post for both, for the finals scratch and for the finals handicap, will play in which he is highest positioned, with priority for scratch. The same way for the trios.
- 12a. Only for the shifts: Any player arriving to late will start his game with the frame that was begun at his appearance on the lane or lanes to which he is assigned. Regaining is not allowed.
